EDUCATION

Sri Eshwar College of Engineering	B.E. ECE	CGPA: 8.12 (till 3 rd Semester)	2024-2028
Don Bosco Hr. Sec. School	HSE	80.33 %	2023-2024
Don Bosco Hr. Sec. School	SSLC	89.00 %	2021-2022

INTERNSHIP EXPERIENCES

MERN Stack Intern – AlgoTutor Dec 2025

- Built a subscription tracking web application using MongoDB, Express, React, and Node.js
- Integrated JWT-based authentication and secure REST APIs
- Deployed the application and managed the complete development lifecycle from design to production

PROJECTS & PRACTICAL EXPERIENCE

Autonomous Rover: Smart Sand Excavator Jan 2026

- Engineered an autonomous rover using **Arduino Uno R4, Raspberry Pi 5, ESP32, and LiDAR** for real-time terrain mapping and obstacle detection
- Implemented dynamic path-planning and rerouting algorithms for reliable autonomous navigation

Warehouse Automation & Order Fulfillment Tracker Oct 2025

- Built a full-stack inventory platform using React, Node.js, Express, and MongoDB
- Developed secure REST APIs for order booking, inventory tracking, and POS integration
- Optimized the client-server architecture to improve workflow efficiency

ChemSight - Hybrid Chemical Analytics Platform Nov 2025

- Architected a full-stack analytics system integrating a React dashboard and PyQt5 client with a Django REST backend
- Designed RESTful APIs with PostgreSQL for real-time sensor synchronization and anomaly detection
- Implemented automated report generation and cloud-based data management

Eco Nexus Nov 2025 – Present

- Developing a Python-based B2B resource-sharing platform with SQL-driven workflows
- Implementing modular backend architecture for secure asset matching and transaction logging

CERTIFICATIONS

Design Thinking – A Primer	NPTEL (Elite-Silver)	2026
Introduction to Internet of Things	NPTEL (Elite-Silver)	2025
MERN Stack Full Stack Development Program	CODE GALATTA	2025
Red Hat System Administration	RED HAT ACADEMY	2025
SQL for Beginners	UDEMY	2025
Mastering Data Structures & Algorithms using C & C++	UDEMY	2025
Basics of C, C++, Java and Python	CODE GALATTA	2024

CODING PROFILES

LeetCode: 400+ problems solved | 52 contests | Max Rating: 1598 | [Link](#)
SkillRack: 1555+ problems solved | 17 Certificates | 525+ Bronze Medals | [Link](#)
CodeChef: Solved 500+ Problems | 14 Contests | Max Rating: 1083 | [Link](#)
HackerRank: SQL & Java Certified [Link](#)
Geeks For Geeks: 95+ problems | Institute Rank: 177 | [Link](#)

ACHIEVEMENTS

Third Price in Mini Project Expo	2026
Shortlisted for Semi-Finals - Caterpillar Autonomy Challenge	2024 & 2025
2nd Runner Up - Freshathon	2025
Shortlisted - SICPC Continental Round	2025
Shortlisted - SAP Hackfest Regional Round	2025

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript
Web Technologies: HTML, CSS
Frameworks: React.js, Node.js, Express.js, Django REST Framework
Databases: PostgreSQL, MongoDB
Core Concepts: Data Structures & Algorithms, OOPS, DBMS, REST APIs, JWT Authentication
Tools: Git, GitHub, VS Code, Power BI, Matplotlib
